Hiring Manager
StoreSaathi

I'm writing to express my keen interest in the Frontend Web Developer Intern position at StoreSaathi. Your mission to build a next-gen POS and Business Management Platform for Indian businesses resonates with my passion for developing practical, scalable applications. I'm eager to contribute my skills in React, Next.js, and Tailwind CSS to your growing team.

My technical experience includes building a real-time chat application using Golang, WebSockets, JWT, PostgreSQL, and a responsive UI with Next.js and Tailwind CSS. Additionally, I've developed a REST API in Go for student data management, implementing CRUD operations efficiently. I've also solved over 700 data structure and algorithm problems, demonstrating a strong analytical foundation.

I'm confident that my hands-on project experience and problem-solving abilities align well with the requirements of this internship. I'm excited by the prospect of working directly with your founding team and contributing to a product that will impact Indian businesses.

Sincerely,
Srajal Nikhra
